Art Unit: 1614

DETAILED ACTION

Election/Restrictions Acknowledged

Acknowledgment is made of applicant's election of claims 20 and 23. The requirement has been traversed in Paper No. 9.

Since applicant's elected claims 20 and 23 that are directed to a method of treating cardiac fibrosis read on claims 17-18 and 21, claims 17-18 and 21 will also examined as <u>being</u> responsive to the originally presented claims. Claims 1-16, 19 and 22 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

The examiner thanks the applicant for understanding the clerical error made on Election/Restriction Requirement mailed 12/13/02. As the applicant correctly identified, Group I invention, drawn to a composition containing quinazolinone derivative represented by the general formula, should have been referring to claims 1-18 and 21.

Specification

If applicant desires priority under 35 U.S.C. 120 of a national stage application filed under 35 U.S.C. 371, specific reference to the earlier filed application must be made in the instant application. This should appear as the first sentence of the specification following the title, preferably as a separate paragraph.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1614

Claims 21 and 23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 21 and 23 are unclear of what is meant by "substantially preventing" and the specification does not define the term. Applicant is requested to clarify.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 17-18, 20-21 and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Pines et al. (US 5449678 A).

The claims read on a method of treating cardiac fibrosis, comprising administering to a subject need thereof a pharmaceutically effective amount of a quinazoline derivative, namely halofuginone.

Pines'678 teaches the use of quinazolinone containing composition (e.g., halofuginone) for treating or preventing fibrotic disorders such as myocardial fibrosis by <u>inhibiting collagen</u> type I synthesis (col. 6, line 4).

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or

Application/Control Number: 09/762,715

Art Unit: 1614

improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 17-18, 20-21 and 23 are rejected under the judicially created doctrine of double patenting over claim 1 of U. S. Patent No. 5,449,678 since the claims, if allowed, would improperly extend the "right to exclude" already granted in the patent.

The subject matter claimed in the instant application is fully disclosed in the patent and is covered by the patent since the patent and the application are claiming common subject matter, as follows: The claimed method of treating "a fibrotic condition" in Claim 1 of Pines'678 encompasses the instant claimed method of treating "cardiac fibrosis".

Furthermore, there is no apparent reason why applicant was prevented from presenting claims corresponding to those of the instant application during prosecution of the application which matured into a patent.

Conclusion

No claim is allowed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian Kwon whose telephone number is (703)308-5377. The examiner can normally be reached Tuesday through Friday from 9:00 am to 7:00pm.
